Post Office Solicitor Defrauds the Public

Public Rights Association
Care of Clifford E. Clinton
5470 Los Feliz Blvd., Los Angeles 27, Calif.

Dear Mr. Clinton:

Dr. Edwyn E. Melby, of 3023 W. Sixth St., L. A., sent me a clipping containing your invitation to report cases where the P. O. usurped dictatorial powers of censorship to declare natural remedies fraudulent.

In San Diego Prof. John Lovranich conducted a health center for 30 years where he advocated natural living and also sold fruits, herbs and vegetables, raised on his own fields which he had well fertilized to assure full mineral contents in his health products.

As long as he lived, having diplomas from Vienna institutions and being an expert on chemical contents of mineral values of his herbs, the American Medical Association dared not tangle with him. As soon as he died they sent an agent to snoop in the shop run by the widow and they preferred charges with the Post Office Solicitor in Washington that she was selling herbs under fraudulent claims.

Not being versed in the shenanigans of bureaucracy, she hired James J. Laughlin, Esq., National Press Bldg., Washington, D. C., who appeared for her before the Solicitor's Board and not having a fortune to spend on hiring EXPERTS to testify for her, the American Medical Association prevailed to have her herbs declared FRAUD.

Her mail is being returned to senders, marked FRAUD. She does not have the knowledge nor the money to fight in local courts for an alternate writ of Mandamus against the local Postmaster to protect her rights and is slowly being put out of business.

Kindly contact James J. Laughlin in Washington, D. C., as well as myself, who am taking an interest in the matter because, aside from the interest I have in natural remedies, the monopoly given the U. S. Post Office in running the mails is being misused to destroy the business of competitors of the American Medical Association. If the Post Office can arbitrarily deny the use of the mails to one set of competitors in one line of merchandise, it can extend that procedure to all lines of merchandise and then where are we?

The case started on April 8, 1946, F. & L. Docket 15/200. Charges against MODERN HERB CENTER at San Diego, California, and LEMON GROVE HERBAL GARDENS at Lemon Grove, California.

The widow's name is Margarete Lovranich, 36 Mt. Vernon Avenue, Lemon Grove, Calif.

Sincerely yours,
C. LEON de ARYAN.

"Christian Front" Meeting in N. Y.

Dear Mr. de Aryan:

When three sycophant — Jewish controlled New York dailies—such as "PM", the "Daily Worker" and the "New York Post" combine in such concentrated efforts to smear an attempted revival meeting of what remains of the "Christian Front" and high pressure New York City's Mayor and Police Department to deny the right of Free Speech and Free Assembly to Mr. Daniel C. Kurts—**then I am for him,** even if I should be the only one who dares to come out in protest against such proposed un-American curtailment of a citizen's constitutional rights.

Why should Mr. Kurts be denied the right to be heard, when the Communists and the Jews, who are one and the same, continue daily and hourly to abuse the right of Free Speech, Free Press and Free Assembly!

If the journalistic abuse of such proposed "Christian Front" meeting ceases like by magic, the moment the New York City Police Dept. upholds Mr. Kurts' constitutional right of Free Speech, and not a word can be found anymore in any of these three Jew dominated New York dailies—the other leading New York dailies had never taken cognizance of the meeting of the "Christian Front" anyway—thereby making the newspaper-reading New York public believe, that the "Daily Worker", the "New York Post" and "PM" had been successful in stopping that meeting, then I believe that you, as the champion of Human Rights, should give the truth a chance and inform your readers that there had been somebody who had protested against that pressure exerted on New York officials, who have sworn to uphold the U. S. Constitution.

You may not have space for printing my correspondence with the New York Mayor and the New York Police Commissioner, but I believe that in justice to a Christian, **you should at least keep your readers informed to the effect that the meeting was held** and print the following eye-witness report of that "Christian Front" meeting:

* * * *

TERRORISM BY PHOTOGRAPHERS

Daniel C. Kurts successfully carried out his plans to stage a "Christian Front" rally on Saturday, June 28th, at Queens Village, a suburb of New York City.

Despite continuous **organized** opposition, he lectured for three solid hours, and though the applause was slight, he did bring his vital message to the people.

It appeared that the countless newspaper photographers brought about the ceasing of applause, as each time an individual or a group applauded, the flashlights boomed and the cameras clicked. In due time people were afraid of seeing themselves in the newspapers the following day and the applause died completely. This terrorism did not affect Mr. Kurts who continued his lecture and gave ample reason, why **Gen. Douglas MacArthur should be elected President of the U. S. in 1948.**

A special police force kept very close check on a dozen or so hecklers who did their utmost to stop the meeting. The hecklers were escorted to the outer fringe of the crowd from time to time, reprimanded and told to keep quiet. This helped maintain some law and order, but the hecklers kept returning, burying themselves in the large crowd so as to go unnoticed. When Mr. Kurts was threatened and insulted by these hecklers, he simply hurled back the insults time and time again.

Mr. Kurts assailed both the local and the New York metropolitan press for failure to give the public a true account of domestic and foreign affairs.

His accuracy in this matter can best be shown by the treatment given his meeting by the New York dailies.

When in October 1945 a similar meeting was staged by him near the same place and same was orderly in every respect, so that the police saw no reason to interfere, the pages of all New York dailies, and in particular, of the "Daily Worker", "PM" and the "New York Post" were full with accounts of rioting, pandemonium and subsequent arrests, an avalanche of smear.

Now, in 1947, when all attempts to impede or wreck the meeting fail, the great free press remains strangely silent.

Yet, this same press did, for nearly a week prior to the meeting, run accounts of "revival of Queens fascists", heading a few columns with "hate meeting arouses citizenry" and so forth.

In view of all this pre-meeting publicity it is doubly odd that the great "free" New York Press should remain so silent following the conclusion of the meeting.

Mr. Kurtz promises more meetings for the future. His courage, patriotism and deep convictions deserves the admiration and support of all.

And in conclusion, it ought to be mentioned that the really disgraceful city magistrate, Joseph De Andrea, appointed by the equally disgraceful former New York Mayor, Fiorello La Guardia, had to resign recently from the New York City bench, possibly as a result of his disgraceful performance in 1945 in framing three speakers at that "Christian Front" meeting at the behest of the "Hidden Hand" which tends to ruin the U. S. under Truman just as it did under F. D. Roosevelt.

Thus it becomes apparent that the open aggressiveness of those persons and combinations whose main activity is to deprive the common people of their share of Human Happiness is as disgusting as the hypocrisy and the shameless inconsistency of persons and movements and agencies which profess to champion the cause of the common people, but in reality merely take up those causes to gain for themselves wealth and power at the expense of curtailing the Happiness of the Common People.

KURT MERTIG.

IS GEN. MacARTHUR A CHRISTIAN?

My dear Mr. Mertig:

I received loads of notices about the meeting of the "Christian Front" in N. Y. to nominate Gen. MacArthur for President of the U. S. A. I threw them all in the waste basket as I throw similar literature of Gerald L. K. Smith, even though I publish certain news items about both, because they are news. And for this reason I published your report, too.

But, the **planned Famine in Germany** is going to decimate once more the white people there for the benefit of the Mongols of Russia, including the Jews. And all this stems from the fact that Germans also, while considering themselves **Christians,** took refuge to the sword, armed Hitler, and opened the way wide and handsome for all the sadism and misery which now befalls Germany.

Mr. Kurts may have given good reasons, as far as they go, why he nominates Gen. MacArthur for President. What I remember is that it was MacArthur who drove the veterans out of Washington, D. C., with fire and sword and who dropped the A-bombs on Japan. How that killer and highly trained mass-murderer makes good timber for the Presidency, under auspices of an alleged **Christian Front,** is beyond my intelligence. To my simple mind one cannot serve the Sanhedrin, with its lust to kill, rule and ruin, lead in a war which was calculated to ruin America as well as the Axis, and yet be a **Christian.**

You, as avowed leader of German-Americans, who also pretend at being **Christians,** should at last awaken to the fact that you cannot serve Christ and the Devil, too. If you people were to devote as much time to serving the **Christ** in fact as you devote in harranguing the Jews, yet nominating the Jews' trigger men for high office, this **planned famine which next winter is going to devastate Europe again** would not have come to pass as an **American measure.** You are devoting too much time to rabble rousing and too little to true Christian work.

But how could you be effective as long as you don't discriminate yet between what is **Christian** and what is brutal and foolish?

Germany and America are getting what they have made for themselves. You and Daniel C. Kurts persist in taking Christ's name in vain, hence your efforts are vain, too.

Sincerely, C. LEON de ARYAN.

THE "MYSTIC" HENRY WALLACE

Another archetype of the Liberal is Henry Agard Wallace, who is another kettle of herring entirely from Ralph. Ralph is a strictly orthodox phony, as witness his pre-Pearl Harbor breast-beating—"We've got to fight, we've got to fight"—and his post-Pearl Harbor struggle to get himself a draft deferment. Henry, on the contrary, would, at the drop of Mr. Roosevelt's shroud, immolate himself. If Agard's **daemon,** or, as the Greeks call it, his **F. D. R.** told him to do a double-half-gainer from the Brooklyn bridge with an anvil under each arm, Agard would jump. Ralph would explain that he was just too busy at this time.

But Agard is a Liberal, as witness the single fact that in the early '30s he was deploring war as bestial and in the late '30s extolling it as the salvation of the Common Man; or, taking the same fact and looking at it differently, his protestations of Christianity coupled with his insistence that the Century of the Common Man "bomb mercilessly" those nations which refused to string along. A nasty old Reactionary would see the contradiction in saying, "Praise the Prince of Peace and pass the ammunition," but Agard wouldn't even gulp a time or two in the middle. Agard is a Liberal and he will abandon his vegetarianism on the spot in order to sink his front teeth into a live Fascist.—The Progressive.

Between the time that F. D. R. was elected President for the first term and the day of his inauguration, a banquet was given in Alexandria, Virginia, attended by brain trusters. The late Professor Wirt of Gary, Indiana, was invited by mistake. He later testified before Congress, but at that time was ridiculed, that these brain trusters planned the overthrow of the United States Government and the substitution of a Marxist State. Henry Wallace was present at this banquet and in enthusiastic agreement with its spirit, according to Dr. Wirt, whose testimony is a part of the permanent record of the Congress of the United States. The Chairman of the Committee before which he testified who at that time ridiculed him and scorned him (ex-Congressman John J. O'Connor) later apologized to America for not accepting the truth spoken by Dr. Wirt.

When Henry Wallace spoke in Los Angeles a collection was taken up in the meeting for his pro-Stalin campaign. The largest contributors were Charlie Chaplin (Jewish), Hedy Lamarr (Jewish), Edward G. Robert Kenny vs. Arthur L. Bell

LOS ANGELES,—Robert W. Kenny, former attorney general of California, has taken the lead in the campaign of Henry Wallace for president in 1948. Appearing in various cities of Southern California as PCA's co-chairman with other red tinted subversives, he openly espouses the cause of Russian appeasement and surrender of civic integrity to Soviet ideology, seconding Wallace in that line. This political prostitute who was thoroughly trounced and repudiated by the electorate when he expected to be elected governor last year through the Newdeal, CIO and Communist machine, had initiated the destruction of "Christ's Church of the Golden Rule" upon demand of the CIO and the atheistic intrigues of the B'nai B'rith Gestapo, by filing suit against the Trustee of the Church, alleging fraud and embezzlement. A compliant superior court in Los Angeles issued an order removing Arthur L. (the Voice) Bell from the managing position of the $3 million estate and appointed Kenny's former law partner and stooge as receiver and administrator. This fellow refused to pay bills as they became due and created a condition bordering bankruptcy.

Arthur Bell, following poor and not disinterested legal advice, went into bankruptcy in federal court and thus jumped from the frying-pan into the fire.

Arthur L. BELL

Last week the federal trustees in bankruptcy appeared in the Referee's court and demanded extra pay, aside and above their legal percentage graft for having misadministered the estate. When they took it over its going concern value was at least $3 million. After tearing it to pieces during a year and a half they have not been able to get even $1 million cash out of it. For depreciating it and blowing $2 million into smoke they insist on extra pay.

Referee Benno M. Brink who fell in with the CIO and the Jewish-Russian atheistic conspiracy of destroying a Christian activity that menaced the state-religion of "patriotic" murder and war in place of Peace and Prosperity for the people, showed inclination to discover a legal loop-hole to reward the trustees for being good hyena-stooges. Brink, who as the tool of Kenny's and his Assistant Olney's attack upon Bell, helped dissipate the estate thru unnecessary litigation and synthetic findings of "fraud", is especially interested in rewarding the attorneys for the trustees by paying them fat fees. These legal wolves had previously collected $37,000 and he granted them an additional $15,000 immediately, with a provisional gift of $5,000 to the trustees above the graft they already received.

Originally the Church owed $111,000 to trade creditors as due bills from a $3 million going concern. The Attorney General and the bankruptcy court reduced the estate value to less than $1 million, have not paid a penny to the

creditors, but aside from mismanagement and their hyena-graft upon the liquid assets, the court squandered already $100,000 in cash for fees, salaries and incidentals.

All this was done by claiming that Bell could not handle the estate for the **benefit of the 800 members** of the church. Bell had produced the going concern in two years labors. The persecutors wasted it in 1½ years.

This is "government", A. D. 1947.

"Friends of Democracy" Are on Trial Before Jewish Judge

Machinations of Machiavellian Smear Gang in New York Being Brought to Light

NEW YORK, July 11 (Special).—The trial of the notorious smear outfit, The Friends of Democracy, incorporated in Missouri but making New York its headquarters in defamation, finally came to trial yesterday before Magistrate Simmons, charged with **"conspiracy to defame Anti-Communists".**

The Jewish judge appears to endeavor to conduct a fair trial and thus far has allowed no "monkey business" on the part of the defense.

Complaint by Attorney Hallam M. Richardson of 226 Willoughby Ave., Brooklyn, was filed on June 10. Trial date was set for July 7, before a Jewish lady judge, Magistrate Larick, who kept the prosecution waiting all morning until time for noon adjournment, when she announced that she herself was a member of the "Friends of Democracy", and turned the case over to Magistrate DiGiovanni.

When the participants went before the latter, he said his calendar was full for all of July and could fix no date for trial.

Tired of being given a "run around", Lawyer Richardson went before Chief Magistrate Bromberger who assigned a special judge, Magistrate Maurice Simmons, and fixed Thursday, June 10, 2 p. m., at the 153 E. 57th St. court, for the trial's opening.

Hearing that the Birkhead outfit defendants were going to ask for a postponement on account of one of their chief defense witnesses, Attorney Berger, secretary of the N. Y. Post Co., being ready to leave on his vacation, Prosecuting Attorney Richardson put Mr. Berger on the stand as his first witness, and thus stalled this dilatory tactic.

Berger proved a reluctant witness, but much groundwork was laid for showing just what a conspiratorial super-state organization the "Friends" were.

Kurt Mertig, a patriotic American citizen of German birth, with an unsullied record of 35 years in the United States, was next put on the stand. His recent record of unjust persecution by the Newdeal despotism and its stooges, his railroading for a misdemeanor he did not commit and service for five months in jail, were all brought out, along with his defamation by the notorious "F. of D.".

Mr. Mertig made a fine witness, and was as cool as a cucumber on ice when the defense lawyers tried to embarrass him by trick questions.

The defense was greatly perturbed by some articles appearing in THE BROOM, especially regarding Birkhead's trial for criminal libel.

"Were you the author of these articles?" he was asked. "I was NOT," he promptly replied; which upset the lawyer, as they had expected thereby to prove that Mertig was "anti-Semitic". MORE THAN 25 COPIES OF THE BROOM WERE INTRODUCED!—without injury to THE BROOM or Mr. Mertig.

Today (Friday) Mertig was on the stand most of the day, under cross-examination by the defense, which produced document after document in the effort to discredit him. He came through with flying colors and augmented prestige for honesty and patriotism.

Trial will continue next week. The **"Complaints Memorandum Re Criminal Conspiracy to Defame Anti-Communists",** as covered by Penal Law of the State of New York, Articles 54 and 126, is a masterpiece of historical documentation.

Choosing the Christ Service

"Daddy," said Fredric, "I notice you are really going after all those would-be Christian leaders, whether they be Germans, Americans or English, who give lip-service to God yet indulge in force, violence and war, because you say they are tithing the Devil and not God."

"Fred, there is nothing else left for us to do. Our worst enemies are not the Jews but these ministers of Christianity who take God's name in vain. The Jews could not harm a Christian people. Christians would bring salvation to the Jews because there would be no chance for crooked deals. And once the Jew has to be simple and not treacherous, he ceases being a Jew. Christians are not suckers. Simplicity is the highest expression of Intelligence while duplicity is stupid because it destroys the spritual integrity of the wily shyster, creating a cleavage in his being that never gives him peace. He is always at odds with himself and the world, resorting to greater violations to prove his egotism. He is a devil incarnate, carries hell in his own heart."

"Then Christ is our Saviour and it is not a myth?"

"Fred, there has been so much humbug played with the term Christ we have to clarify its use before you'll know what it means. **The Christ is the denizen of the realm of God** where Peace, Love, Intelligence rule supreme. That realm Jesus calls the Kingdom of Heaven. Its righteousness is the standard for our Thought, Word and Deed. Seek that standard, that rule, first, then you cannot go wrong when you follow it and all problems are easily solved. Ignorant people confound Jesus with Christ. Jesus was a man born of Mary who accepted the seed of Gabri-Eli when he brought her the glad tidings of her election to bear a Saviour. After Jesus grew up and devoted his life to attain thru self-discipline entrance into divine consciousness and carried the Ideal and standard of true living into daily practice, giving his very life to it, **he, too, became a denizen of Heaven.** Once you discover that God is our Father and you love Him with all your might FIRST, last and all the time, then the Christ-nature unfolds in you. In this awareness it is natural to love your neighbor as yourself."

"How do I make sure of it, daddy?"

"Simply by thinking it over and deciding to make it the career of your life. When a fellow wants to be a chemical engineer, like David, he goes to school, winds up in college, studies, experiments and finally graduates. Now if your aim is to understand divine engineering so there be no mystery of life for you, you go about it the way David did to get his degree from college."

"But who is going to teach me?"

"Our Father who is in Heaven. He has provided the institution and the staff. All you need do is enroll and register in your own heart and mind and then put in 15 years, day and night, as David did to get his degree."

"Did you do it, Kosti?"

"I am doing it. You see, it takes more than a life-time for most of us. Jesus mastered the curriculum in 33 years. Then he became an example of the Christ incarnate when at his graduation-test he refused to accept the Kingdom of Judah at the hands and the beck and call of the Sanhedrin. Instead, he became one of the rulers in the Kingdom of Heaven, but he had to master all animal instincts for survival and hold them under control of his divine mind. This overcoming of the fear of death and animal reflexes in the battle for survival, graduated him into full-fledged sovereignity. Thus he became a divine King of Life itself."

"To enroll for this career, all I have to do is decide to put God above all other considerations?"

"That is the procedure, Fred. But in so doing you draw your instructors to you telepathically. From then on you can never deviate from that decision because if you do, they drop you and you are worse off than before. Once you get a foretaste of Heaven, life on earth becomes hell when you don't obey the Rule of Heaven. The Jews are trying to make heaven on earth for themselves by force. They say they'll do it in Palestine. Moses fooled them just to get them out of Egypt. Moses was an Egyptian morganatic prince. He was instructed to get those Jewish troublemakers and revolutionists out. He did. And he told the fools he'd take them to their promised land. They followed their pied piper, but he kept them in the Sinai concentration camp for 40 years. Most of them died there. Their children swarmed into Palestine and raised hell. They are still raising hell."

Emil Ghory, a Christian Arab, in debating the Palestine problem before the United Nations said: "The Jews are questioning the record of an Arab spiritual leader. Does that come properly from the mouth of a people who have crucified the Founder of Christianity?"

Picture of a Murdering Christ

By C. LEON de ARYAN

During the past month I received uncounted copies of a leaflet featuring the statement of **Mrs. Agnes Waters,** of Washington, D. C., 3267 N street, before the Senate Committee on Foreign Relations, March 1947. Passages thereof are underlined where Mrs. Waters calls **"the Jew, our common enemy"** and then goes on to name Bernard Baruch, Sam Rosenman, Morgenthau, Frankfurter, Lillienthal, Leon Henderson, Adm. Lewis Lichtenstein Straus, Kuhn Loeb & Co., Lehman Bros., Jacob Schiff, the Normans and winding up with the **Khazar Jews** who are intent on establishing their kingdom in Palestine and extend hence their rule and consolidate the various Jewish controls over the world.

The original, not underlined, has been printed by the Congress as official record of hearings; and it was considered such a **"coup"** by Mrs. Waters' admirers, they raised the money to reprint it, **underlining** the passages which usually would not make the daily press. On the margins there are various sentencious quotations from Lincoln, **"I have faith in the people; let them know the truth and the country is safe."** Another by Carl Schurz, **"My country right or wrong—when right to be kept right—when wrong to be set right."**

Of course, I am expected to admire the "courage" of Mrs. Waters and spread the great news that she succeeded to have her statement officially recorded so that it becomes **privileged to quote it in print.**

I might have been delighted to spread the great good news, if any there were. But there is one little statement tucked in, unostentatious-like, which throws additional light, like **the small-print-clauses of a shyster document,** really giving away the whole betrayal, but suckers seldom pay attention to the self-evident, so they sign and swallow the bait. They acclaim Mrs. Waters a heroine, when in fact she is the one of the cheapest Shabes-Goyim, doing the Sanhedrin's dirty work.

The "give-away" clause is on the front page, the fourth paragraph: **"I am no Pacifist. I want no disarming . . . . "** yet she has the temerity to represent herself as a missionary of **"Christian America: when we, the great mass of patriotic Americans, who fight wars and pay for them in blood, privation, taxation, and the loss of liberty, see through the clear lens of fact THE FACE OF OUR COMMON ENEMY, THE JEW . . . . "**

Mrs. Waters is the perfect description of the American Shabes-Goy who betrays the Christ, **is no pacifist,** maintains her faith in the sword, not God or the Christ, and then **brags about the stupidity of the Shabes-Goy,** even the loss of liberty, paying in blood and carrying misery **everywhere in the world!**

I, too, with Lincoln, have faith in the people; "let them know the truth and the country is safe". And as Carl Schurz said, "My country right or wrong—when right to be kept right—when wrong to be set right."

THEREFORE, when the country is wrong, and Mrs. Waters is wrong, and all who peddle her pamphlet in the imagination that she did a **heroic work for Christ and country** are wrong, we must let the people know the truth that the country be made safe from such as her and be set right.

Ever since George Washington established the U. S. A. by force of arms and imagined to have gained liberty and guaranteed our unalienable rights, **our common enemy, the Jew,** had special privileges to ruin the country and Gen. Washington himself gave them to him. Ever since, the Jew has ruled, slyly, but effectively. And there lies the power, **we give it to him.**

Can one imagine a **murdering Christ, drawing the sword, bayonetting men, women and children, bombing them, starving them, poisoning and finally selling them into slavery?** Yet, that is exactly what **"Christian America"** has been doing from the beginning and continues to do. Why? Because **"the great mass of patriotic Americans, who fight wars", etc.** deny the Christ and follow the leadership of the Jew. After Jesus rebuked the tempting Sanhedrin Jew who showed him the expanse of territory from the mountain top, promising to set Jesus up over that land and its people, if he fell in with the Jew's scheme, the Master thundered: "Get thee behind me Satan! - it is written, thou shalt bow only before the Lord, thy God!"

But Mrs. Waters and her fellow Shabes-Goyim brag about the fact that they hold not with the Christ because they are "patriotically" fighting wars for the Jew, "paying in blood, privation, taxation, and loss of liberty".

Well, what do these fools expect? Paradise? Liberty? for robbing other people of all that God gave man? America has become one of the most criminal nations on the face of the planet and it cannot escape the backwash!

And the Sanhedrin is happy to have such a marvelous apostle of Christ-betraying-Christianity in Mrs. Waters. Hence, she never was indicted in the "sedition" case. What harm does she do by "exposing" the Jew, as long as at the critical hour she is patriotic enough to forswear the Christ and be no pacifist?! That's what counts! **There is where we find whom she worships.**

American suckers imagine themselves heroes because they murder their fellows **everywhere in the world,** and have the A-bomb to enforce the rule of the Jew. Yet, the fools call themselves Christians. It is not he who calls Lord, Lord, who represents the Kingdom of God, but he that doeth my Father's Will!—on earth, as it is in heaven. **Worship is what you do,** not what you claim. America has been tithing the Devil all along, from George Washington, to Lincoln, Wilson, Roosevelt and now Truman. Billions are found for war when the country has no money to eliminate poverty within, illiteracy and bad health. Not till Americans will worship the Christ **in deed and have FAITH in God and the leadership of the Son of Man** who gave His life on Golgatha to set the example that by force and violence the Sanhedrin could not liberate the Jews will Liberty come to him who does the will of "My Father" on earth as it is in heaven.

Why don't you tithe God and employ **all your faculties in His service,** for a change and THEN see whether the Jew has power over you. In fact, when Americans will be Christians indeed, the world-menace of Judah will disappear as ghosts flee the sunlight. It is we **who make the Jew our ruler** for we bow to him and deny the Christ.

Planned Famine in Germany Getting Worse

Dear Mr. de Aryan:

What my pamphlet "The Planned Famine" was the first and only one to prove is coming true, namely "The Great German Famine", organized by the ghouls of Washington, New York, London and Paris. That famine is on hand and cannot be glossed over by any sort of a red herring.

In an article published in the "Sonntagspost" of June 29th, Prince Hubertus zu Loewenstein, now on the spot and a reliable witness, estimates that 27 millions of Germans not "perhaps" but "with a dead certainty" will starve to death. That exceeds by 2 millions the 25 millions which Herbert Hoover in his report to Truman of 3 months ago mentioned as the alternative to the adoption of his plan. As the whole world knows, that plan was only in part adopted by Truman. The basic effectiveness of the Morgenthau-Sanhedrin plan, to eliminate the German nation through a corroding famine was thereby not disturbed.

All reports have it that even the never sufficient 1550 calories which the torturers agreed on a long time ago would barely keep the German people alive, are not distributed because Washington had not maintained the necessary shipments of foodstuffs. According to Loewenstein and others the rations, on the whole, are now under 1000 calories. These are the "peacetime" calories predicted a long time ago by Marshal Montgomery as the calories that would be dealt out to Germans. They are even less than the calories of Belsen Camp in wartime which bombings, traffic disruptions and blockade were largely responsible for. The Germans do not die quickly enough to suit the sadists.

Only two days ago I received a letter from Aachen, British Zone, dated June 10th, in which the writer, a widow with four children, thanked me for a "CARE food package." "Wir stehen vor dem Nichts" (We confront a void) she reports. When we received the parcel there was nothing in the house outside half a pound of "Gerste" (farina). Potatoes and "Huelsenfruechte" (beans, peas, lentils, etc.) are not obtainable anywhere. Very few vegetables and hardly any meat. The little bread we have we eat dry, day in day out. All are nervous and irritable. How often have I said that it would have been best if we had all been killed in the terrible air attacks and conflagrations. Then all suffering would be over. No one can imagine what joy your parcel created who has not hungered for two long years." The whole family was overjoyed and took new interest in life. But there are millions of homes in Germany

where no such ray of hope enters or will enter. The ruling ghouls have seen to that. What the torturers are doing to the German people is the greatest crime in all history and will be recorded as such. Only an aroused public opinion can stop it, and the spread of my "Planned Famine" would certainly contribute towards it.

Sincerely yours,
A. O. TITTMANN

Doc Townsend's '48 Sell Out

By ELLIS O. JONES

WASHINGTON,—It's somewhat misleading to call them "followers" of old Doc Townsend because he isn't advancing. He is away behind where he was in his heyday. But whatever you call them, some thousands have just been here for a convention. It's the same old shifty Doc and the same old racket and, while not quite the same old fantastic plan, its modifications have not been sufficient to make any sense to it or to give it any hope of being favorably received by a substantial number of the people.

The outfit was once considerable of a movement, but now like the corrupt Ham and Eggs outfit, it is but a dried and wrinkled cult. So long as it offers a social outlet for a lot of retired oldsters, harmless and ineffective, who delight in the noise of shallow hymn-howling and slogan-shouting, who have the time to sit and be "entertained" by children, amateurs and inconsequential declaimers. It is sufficient to let them lie where they fell, but when these oldsters become the gullible lambs of designing youngsters, political black sheep bell-wethers leading them about into blind alleys in the interest of this or that group of vote-hunters, then it is only fair to put them on notice.

Clearly what was going on here was a revitalizing and refurbishing process for the purpose of making the old racket look like something worth wooing in the coming Presidential campaign. Despite their bombastic predictions, the leaders haven't the slightest expectation that the bill will ever become a law. As a matter of fact, they don't want it to become a law as that would destroy the racket, just as Tom Mooney ceased to be an asset and his "friends" lost interest in him, when once he was released from San Quentin.

Although nominally a Republican, old Doc and his boodle agents are always rather coy around election time until the most lucrative deals can be decided upon. What gave him undue prominence in the very beginning was his role in taking the potential-pensioner vote away from Upton Sinclair with his starry-eyed moonbeam-chasing bunch of Utopians, in his gubernatorial campaign. That was good. But the result was the election of a very inferior Republican governor, and that was bad. Uppie realized the situation so frantically that toward the end he made the childish and utterly futile gesture of offering $400 per month to the pension-grabbers instead of old Doc's pitiful pittance of $200.

And so, as usual, the politicians are watching and some of them, like Pepper and Wayne Morse are saying just enough nice things to keep on the good side without endangering their standing in other quarters. But times have changed. The outfit will likely go at a shop-worn bargain price next year.

Kosher Butchers of Alchemy

Strange Elements Revealed in Biggest Smashup of Atom

PALO ALTO,—A devastating smashup of the atom, yielding a whole layout of strange new transmuted elements, was reported as the first formal achievement of the giant post-war cyclotron at the University of California.

This initial effort of the 4000-ton concrete-caged, mechanical monster opens the way for production of upwards of 100 new radio-active elements for scientific research. At present there are about 450 radioactive and 275 stable forms of conventional elements.

For the first time on record an atom was extensively smashed by a man-made machine. Heretofore atom smashing has consisted of knocking one or two bits off the nucleus. Even an atom bomb explosion divides a nucleus into not more than five parts.

The cyclotron wrought havoc by hurling 200-million-volt bullets at atoms of arsenic. The arsenic nuclei were shattered into at least 22 and possibly as many as 30 pieces. At least 10 were elements of regular matter. At one stroke the machine turned one relatively heavy element into many different lighter elements, with some spare parts left over.

SATANIC BUTCHERS OF ALCHEMY

What a chuckle the old Alchemists are emitting at these reports from American universities that Alchemy was no fraud, as Astrology and Naturopathy are no fraud either, but the real laugh is at the modern asses of "Science" who don't even know what they are doing.

The Alchemist was honest and truthful. He searched for a way of transmuting base elements into gold. He was and is yet being dubbed a faker by idiotic "Science". But our Kosher University Einsteins and other Jews, who claim that the A-bomb is a **Jewish product** of universal butchery of mankind and all that breathes, keep on lying to themselves and the gullible savages whom they control and exploit, that they succeeded to **butcher the Atom.** Same as the vivisectionists who are hunting the cancer or polio bug, or the soul of men under microscope.

Can you fracture the **ultimate UNIT** of matter? If you do, was it the ultimate?

The atom is the ultimate unit. So why do they lie to you and to themselves? To impress the savage Goyim! Mystery—they are able to do the impossible—and the idiots gape in awe.

But they give themselves away.

They never smashed the atomic unit. They smashed an element and transformed it under pressure into sub-elements or as the Alchemists say, they found the means by which elements can be transformed, which was the goal of the Alchemists.

After the Pope burned and quartered them, after "Science" called them frauds, now the Jewish butchers of mankind, in search of world destructive forces, come across the means by which elements are formed and transformed. But elements are not the ultimate. They are miles away from the ultimate. Elements are a temporary product subject to change. The ultimate is the core that is not fissionable, for were it fissionable it would not be atom, which very word spells: (Greek) **Unbreakable.**

"BLIND LEADERSHIP"

By JAMES BRYAN

Who are they who would confuse us,
With a cunning tact — and use us
For a gain to be ill-gotten,
At a price we all must pay?

Who are they to be our masters
Leading us into disaster
While they talk of peace,
Yet know not what they say?

What to them but fame and glory
Is a battlefield that's gory,
Soaked with someone else's blood
To save the day?

Are we, whom they have called the masses,
To be set apart by classes,
And destroy ourselves
Because they had their say?

NATIONAL MADHOUSE

By MADISON MONROE

WASHINGTON,—Truman shows a marked tendency to forget that he is no longer a member of a law-making body, but only of a law-enforcing body and in that forgetfulness he has been making himself considerable of a nuisance in stepping out of his proper role and trying to influence legislation. This is greatly resented by many of the Senators who, however, are not in position at the moment to revolt openly. In addition to the patronage pressure which is always a powerful lever in the hands of the pressure group, Truman is presuming on the many personal intimacies he enjoyed in the Senate when he was a member and generally liked as a party entertainer at the piano and otherwise.

For instance, when the Lillienthal matter was up, Truman is known to have personally called up, many over long-distance phone, all the senators whose votes were in doubt. A number of Senators who were definitely against Lillienthal were won over in this manner. Similar tactics were methodically employed in trying to kill both the tax and the labor bills. It is believed that the Greco-Turkish handout would not have passed had not Truman added his personal solicitation to the normal prestige which is attached to his high office.

* * * *

Reports from many quarters indicate that **Marshall isn't going to head the State Department very much longer.** He has not been any more successful on the home front than in his foreign diplomatic gaucheries. It was Truman's hope that Marshall would be a great help to him in getting along with Congress, but exactly the opposite has happened. Every time he tries to interfere with legislation, the Congress grows more and more resentful. When Roosevelt ruled with an iron hand, he found Marshall very useful in laying down the law to the supine Democratic lawmakers, but times have changed. Marshall is essentially a snob and the incurable type of vindictive martinet. He has never been popular in the army. And, what is more fatal to him at the moment, he doesn't get along well with the White House Palace Guard, so the search is on for the rather difficult task of kicking him into a college presidency or some other job as far away from our troubled Capitol as possible.

* * * *

Kentucky, in the last Congress, subtended about the largest political angle for its size of any state in the Union. Building on the special deference accorded as a pivotal state, it grew to great power under **Emperor Franklin D.** what with **Cordell Hull** as Secretary of State and **Senior Senator Alben Barkley ("Dear Alben")** special pet of Mr. Big who appointed him majority leader over others more worthy. Senator Happy Chandler was also a staunch New Dealer, but is now Unhappy Baseball Czar. Eight of the nine Congressmen were New Dealers. One of these was the veteran **Andrew May,** Chairman of the Military Affairs Committee.

But now Hull is gone and May is gone and in disgrace and Chandler has been replaced by Republican Senator Cooper and, with the overturn in the Senate, Barkley, the Palooka from Paducah, has been shorn of all his special powers and his standing in the White House. So that now Kentucky has become just another state, relatively unimportant.

The Jews are trying to get Dewey to appoint ex-Governor Lehman in the event of the probable retirement of the ailing Senator Wagner and strangely enough the report says that Wagner, Jr., has consulted Truman about it. Verily politics has many quirks. Why should a Republican governor want to appoint a Democratic Senator, Jew or no Jew? And why should he consult a Democratic president? The act would be practically equivalent to acknowledgement on Dewey's part that he is washed up and that maybe the Jews are offering him a fine retirement berth. As for Lehman, he's pretty well among the has-beens. For him to seek the Senate in this fashion is tantamount to an acknowledgement that he could not reach there by the people's votes.

Stalin vs. Capitalist "Democracies"

"A plague on both their houses!" comes to mind when one sees thru the systems prevailing in the political-economic governments of our day. While the suckers are being exploited and prepared for another war, now to destroy totalitarian Russia and make it pull the Rothschild-Rockefeller chariot; a comparison of the existing methods of slavery in Russia and the U. S. A. does not augur any good for the future.

The pretenses of the Truman-Marshall doctrine of "helping" the rest of the world, provided it accepts Wall Street control and domination, is a diabolic plan. The elements are so plain and self-evident it takes a drink-rotted people to miss it. And Americans spend as much for booze and drugs as they do for food, hence they fail to see thru the conspiracy.

Stalin is frankly the ruler of a slave state. With Mongolian ruthlessness the Politburo owns and controls the lives of all within their territory.

The rulers and exploiters of the "democracies" are not as crude. They allow elections where the suckers are herded to vote for one of the many strawmen Wall Street sets up for them.

The Politburo owns and controls the land and the people within its sphere.

In America a more seductive system operates. The individuals may "own" their land, but, the common man has to pay taxes. The high finance of taxation is like the machinery of an one-armed-bandit. The more you pay in hopes of winning, the less you have and thus your labor and products are taken in control by the feudal owners of valuable sites of land whose taxes the mass of tenants and renters pay even in the cost of food and clothes.

The picture Europeans have of gangster America is only too true. The Pendergast gangster in the White House is only one of the gangs. The difference between Russia and America lies in the **number of gangs** and the methods of extortion. The Politburo is raw and frank. The White House and all it stands for, is sly and tricky. The slaves in Russia obey or starve. The slaves in America are **free to work for their masters.**

It is like those "Yah, Yah" elections of Hitler and Franco: the system of the Fascist Roman Pope. You are free to go to heaven as long as you submit to the Pope, vote "Yah, Yah". But you are the spiritual slave of the Pope. So the people in the U. S. A. are free to work for Uncle Sam who collects his cut. But free enterprise . . . hell, no. Bureaucracy circumscribes everything and unless you are of the Pendergast, Kelly, Hague machines, who are nothing but gangster tools of Rothschild-Rockefeller, you soon discover that you are outside the pale.

It will take another world war for Americans to be forced to think. Will they?

To judge by Germany and Germans, they again hope for war with Russia to gain "freedom". They have not had enough.

America follows the pattern of European intrigues.

BRITAIN EXPELLS CHRISTIANS FROM PALESTINE

JERUSALEM,—The British high commissioner of Palestine has ordered that all members of the Protestant "Templars" be deported from Palestine back to continental Europe whence their ancestors had come about 100 years ago. They are 1,600 persons.

The congregation of "Templars" are devoted Christians, in their belief like the Mennonites and the Quakers. Their grandfathers came from Switzerland, Bohemia, and Germany around 1840 to Palestine, in some religious enthusiasm. They had founded several small villages and were farming. In no period whatever since their settlement in the Holy Land have they had anything to do with politics.

Dewey's "Under Cover" Campaign Damns System . . . . "FEPC" Hearings . . . . South's Opportunity

By WASHINGTON ADAMS

WASHINGTON, July 12 (Special)—Thomas Jefferson never dreamed that such a spectacle as that now being pulled off by that little party tyrant of New York, Thomas Dewey, would ever take place, but he did write against it as no other President ever did.

Jefferson's argument that "democracy"—or the direct rule of the people—was adapted only to a small town or little state, where everybody knew each other.

His idea, as well as that of ALL the Founding Fathers, was that, over a wide stretch of territory, the "REPUBLICAN" or "representative" form of government was the only practical kind; since a man living in far-away Oklahoma and Texas was unable to pass judgment upon the qualifications of a man living in New York or Boston, and should give this choice over to his LEGALLY ELECTED REPRESENTATIVE, who would act for him.

Jefferson died 50 years after he wrote the Declaration, but he never lived to see the start of the infamous non-constitutional party nominating convention system, **now ruining our nation.**

Dewey, claiming he is on a vacation trip only, is in the West on a vigorous drive to capture delegates favoring his vaulting ambition to become President (which he can never be).

He stops first in St. Louis and then in his wife's home State of Oklahoma, and is immediately contacted by national committeemen Barak T. Mattingly of Missouri, and Lew Wentz of Oklahoma. The very next day George C. Hopkins, State Chairman of Texas, shows up, and all these politicians, not one of whom is an elected official of any sort, desiring to "get on a band wagon", assure Dewey they will give him their delegates at the Philadelphia convention!

These professional politicians are for Dewey—not on his merits—but solely because he is governor of New York and they think and hope he can carry that State for President. He cannot and will not. He lost it and most of the other States, including Oklahoma and Texas, because he was a Newdealer at heart and kissed the Roosevelt baby on nearly every stump in 1944.

Do not Mattingly, Hopkins and Wentz know that on Dewey's garments is the stink of the infamous RED "FEPC" — a pro-Negro, pro-Russian, anti-white and anti-Christian measure, which he and his vicious camarilla FORCED DOWN THE THROATS of his politically controlled New York legislature;—a measure which, if permitted to stand, will ultimately make of New York a NEGROID STATE?

This stink will smell all over Oklahoma, Texas, California and the entire nation, and, if the G. O. P. should be foolish enough to re-nominate him, Dewey will suffer a WORSE DEFEAT THAN HE DID IN 1944!

No, these poor politicians are probably ignorant of the stink, being 1500 miles away. They are also 1500 miles away from California, and do not know that CALIFORNIA had a campaign on this issue and it REJECTED THE VICIOUS "FEPC" by 1,000,000 MAJORITY!

Do these men not know that Dewey on the stump in Seattle, 1944, kissed and praised the vicious Wagner act? He said it would never be repealed. But the people put the Republicans in Congress in 1946 elections to oppose the Wagner Labor despotism.

Do these politicians not know that Dewey—supposedly a top party leader—GAVE NOT ONE IOTA OF SUPPORT TO THE REPUBLICAN CONGRESS SINCE IT ASSUMED POWER IN JANUARY; that all his past record would indicate OPPOSITION TO THE TAFT-HARTLEY BILL;—that for this and the actions of his stooge Senator IVES, Dewey has fast lost popularity in New York?

One New York paper wrote of Dewey this week, as follows:

"It is a terrifying thought that Dewey . . . . (if elected) . . . . may turn out to be a Depression President and a War President.

"What gallantry of mind . . . . depth of insight . . . . grace of personality . . . . what devotion to human freedom does he possess that may fit him for this dangerous place? The answer is a shuddering BLANK. DEWEY HAS NONE OF THESE QUALITIES. But he does possess one that outweighs them all in the POLITICAL CALCULUS—the capacity to say nothing, to venture nothing, to wait."

There are other highly objectional aspects and features of the Dewey campaign, wholly aside from the fact that he stands for no known political creed or principle, except the itch for the high office.

Our Founding Fathers knew and remarked (see Hamilton's "Federalist Papers") that an assemblage of 1,000 delegates can never be a deliberative body.

Such a gathering is a mob. It listens only to big so-called leaders. Unknown men are not heard; minorities within the convention are cried down, although they may dominate the platform committee. Our Constitutional Convention of 1787 had less than 50 members and was secret.

Dewey, a known tyrant in his own bailiwick Albany, is trying to carry his despotism into the 1948 covention. He plans it as a cut-and-dried affair, with the leaders of a dozen big States holding in their hands the votes of their stooges in sufficient quantity to dominate the convention and **name him and his "FEPC" foreign-influence platform.** Far from a free convention.

We have had over twelve years of disastrous national control by Roosevelt's New York gang—of "foreign influence". The people are sick of it.

How can the Republican party go before the people, supporting another and little different gang of NEW YORK "foreign influence"?

MUST THE AMERICAN PEOPLE BE FOREVER ENSLAVED TO NEW YORK'S "FOREIGN INFLUENCE"—for demagogic reasons—just because New York has 47 electoral votes?

Although Truman appears committed to making America a Negroid nation, he comes from Missouri and, if re-elected, would be less liable to carry out his fearsome plans than the swarthy and eccentric Dewey, who is known to have the same group of fanatic left-wing foreigners surrounding him that he had when district attorney.

When the names of these men (in the Dewey camarilla) are published to the world, watch Dewey's stock tumble! That alone would be enough to defeat him in the election!

* * * *

"FEPC" HEARINGS

The foreign New York gang which crowded the Senate committee hearings on "FEPC" boast that **not one organization appeared in Washington to oppose it!**

My God! Why didn't the great State of California, that beat it down by a MILLION MAJORITY, send some of its great men to oppose it?

Why didn't all the Southern States' governors appear or send delegations to oppose it?

Why didn't some of the scores of chambers of commerce and manufacturers' associations, who see in the damnable measure an opportunity for the Reds to infiltrate into every factory in America, show up with facts and figures?

* * * *

SOUTH'S OPPORTUNITY

I have a beautiful friend from South Carolina—a Columbia graduate. Her home county has produced ten governors and five lieutenant-governors.

If Truman and Dewey have their way, they will turn that grand old county over to the Negroes, since the Negroes outnumber the whites. Whereupon the whites will do one of two things; they will FIGHT, or they will leave the county, and possibly the State, to its impoverishment and ruin.

From President Washington's first election until 1860, the legislature of the State of South Carolina appointed its electors, as it has the power under the Constitution, AND INSTRUCTED THEM FOR WHOM TO VOTE, FOR PRESIDENT. There was no popular election for President in South Carolina until 1868.

May I suggest to the Southern States that they can, in this manner, protect themselves, and drive a bargain with either party, compelling the national administration to preserve the independence of the States, in the matters of segregation, intermarriage, voting, etc.

They can APPOINT AND INSTRUCT THE ELECTORS, even if the people do vote to confirm their election!

Drew Pearson vs. Robert F. Jones

WASHINGTON, — An admitted forger, a former inmate of a hospital for the insane and a convicted perjurer appeared before a Senate committee as the three witnesses upon whom Drew Pearson, Washington columnist and radio commentator, based his smear charges against Rep. Jones (R) of Ohio.

Affidavits by the trio had been submitted by Pearson as proof of his charge that Jones was a member of the Black Legion. He had urged the Senate Interstate Commerce committee, on the basis of these documents, to refuse to confirm the Presidential nomination of Jones as a member of the Federal Communications Commission.

SENATORS RAP WITNESSES

Biting comment on the character and records of the three witnesses came from committee members.

Jones has announced he will take legal action against the columnist, whose motive, he told the committee, was an attempt to secure control of a Baltimore radio station worth a million dollars through the FCC, fearing that with Jones as an FCC member his application would be refused.

The three witnesses and their records were exposed under committee questioning as follows:

Frank A. Barber, $25 a month "chief of police" of Beaver Dam, Ohio, population 500, former inmate of the Ohio Hospital for the Insane under a certificate of lunacy finding that he had homicidal tendencies. Barber admitted serving six terms in jail, all for what he said were "justifiable" offenses, including "shootin' a guy in Hammond, Ind."

MEMORY WEAK AT 74

Virgil H. (Bert) Effinger, 74, former "commander" of the Black Legion at Lima, Ohio, said he could remember Jones' being inducted into the Black Legion 13 years ago, but could not remember how he had come to Washington within the week from Lima. He finally asserted he had come "by bus". Later witnesses said he had traveled by train with them. Effinger also said he could not remember being sentenced to jail in 1940 for "false and perjured allegations".

Glenn E. Webb, who said he was a member of the Black Legion from 1932 to 1940 and also remembered the swearing in of Jones "about 1934", identified as his an affidavit in which he admitted forgery of 19 payroll checks totaling $653 while an employe in 1942 of the Lima Cord, Sole and Heel Co.

Other witnesses were Jack N. Anderson, Pearson's assistant, who said he went to Lima, Ohio, to "collect evidence" against Jones, and Joseph Emmons, executive secretary of the CIO council at Lima, who helped prepare the affidavits as outlined by Pearson.

PROUD OF BLACK LEGION

Barber, the police officer who proudly displayed his star to the committee, said he was still a member of the Black Legion "in good standing" and that "a man who took the Black Legion oath would make one of the finest Presidents the United States ever had." He said he had administered the "preliminary obligation" to Jones "in the woods on the Tapscott farm" about 1934.

"Jones boasted he crushed the Black Legion in Ohio," he told the committee. "He also wanted to get the FBI in there. I was also a-protectin' the labor union because Jones was against the working man. That's why I signed the affidavit."

Barber, it develped, was introduced on Pearson's national network broadcast Sunday night. He said he couldn't remember what he had said, testifying "they give me a piece of paper to read and I read it." What he read, a transcript showed, was the charge that he had helped induct Rep. Jones as a member of the Black Legion.

ADMITS REPUDIATING STORY

The next witness, Effinger, said he was "personally present" when Jones was inducted into the Black Legion "in the basement of the Tapscott farm". Both he and Barber admitted the ceremony was "by pencil flashlight" in the dark but that they could clearly remember that Jones was the new member. A hooded figure held a loaded pistol at the back of new members as they took the oath, the witnesses said.

Effinger admitted repudiating his affidavit when interviewed by Robert C. Barton, managing editor of the Lima News, on June 27, after Pearson had made his charges. He said he did so "because it was none of Barton's business whether Jones was a member".

To most other questions, Effinger said "I don't remember" and finally told the committee his memory was "a blank for the last two years".

Webb, the third affidavit-signer, admitted that his affidavit had been changed to show "1934" as the date of Jones' alleged induction instead of "1935". He said Emmons had asked him to make the affidavit that he had been helped by Anderson to "remember".

Emmons said he joined the Black Legion in 1938 "to expose it". He said the Ohio district around Lima was "a hot-bed for reaction" which was against the CIO. He admitted calling Pearson by long-distance telephone and taking instructions from him concerning the affidavits and that "the story emanated from the CIO office".

CITIZENS BACK UP JONES

A parade of Lima citizens, including a Catholic priest, a Jewish merchant and a Negro testified in behalf of Jones that he was always "fair and tolerant" and a noted foe of the Black Legion with its purported anti-Catholic, anti-Jewish, anti-Negro philosophy.

Kenneth H. Birkhead, executive director of the Friends of Democracy, a noted smear organization, and son of Leon M. Birkhead, discredited minister, testified that his organization was against Jones because he had received praise from "the Fascist fringe". Jones was also anti-British, anti-Roosevelt, he stated, and "an America First Congressman if there ever was one."

Jones took the stand briefly to repeat his emphatic denials that he had ever been a member of or attended a meeting of the Black Legion.

Walter Winchell is now endorsing and approving the murder of innocent people in Palestine by Jewish terrorists. Those who hear this character assassin over the radio will remember that on numerous occasions he has urged his listeners to buy SCOPE Magazine. SCOPE has now been exposed as a Stalin-subsidized and supported periodical. Winchell is one who never attacks Marx, Trotsky or political Zionism, though he poses for the present as being anti-Communist.

Congress Represents the People

Recently the governors of most of the Far Western states met and jointly denounced the action of the House in heavily reducing appropriations for the Reclamation Bureau which would have largely been used for the construction of tax-exempt government electric generating plants and related facilities. The governors announced that they would make a concerted demand on Congress to restore the funds to their original figure, on the grounds that the future welfare and industrial development of the West is at stake.

Here is a perfect example of why economy in government has become so difficult a goal to achieve. The plain and ominous fact is that we have come to look on the Federal Treasury as a bottomless pit which may be raided at will for any region's pet projects. All of us are strongly in favor of a reduced budget—so long as budget reductions don't affect us. Governors, senators, representatives, mayors and a host of minor officials shriek to high heaven whenever a nickel is sliced from an appropriation for their states and towns.

Another plain and ominous fact is that we have lost local independence and local self-reliance. We want the Federal government to spend billions for purposes which are clearly within the provinces of local government or of private business enterprise. And thus, we are surely and swiftly building a supergovernment with all the threats to freedom and independence that supergovernment inevitably imples.

It is senseless to blame Congress for waste and prodigality when the people at home who cast the votes demand a continuation of unnecessary spending. Congress simply represents a distillation of the voice of the people. In the long run, the people are given what they ask for—and it is the people who must choose between supergovernment, whose end is always some form of dictatorship, or our Constitutional government of limited powers with its firm guarantees of maximum freedom for all.—Public Service Magazine.
